

E-Billing conditions

May 2016

1. Scope

The participants will receive electronic invoices via e-mail as soon as the registration for E-Billing is completed. With registration for E-Billing below conditions are accepted.

2. Delivery of electronic invoices

The participants accept that electronic invoices have the same legal effect as other legally binding methods of invoicing.

3. Recording, storage and use of data

Electronic invoices may be used in connection with payments via internet (e.g. E-Banking). In line with legal requirements (such as article 962 ff. of the Swiss Code of Obligations or the Swiss law of VAT, MWSTG) the participants are aware that, if applicable, they are solely responsible for the storage of such invoices. Participants liable to VAT take note that electronic invoices cannot be used for the deduction of input tax. Electronic invoices cannot be used to pay via post office.

4. Amendments to conditions

UPC reserves the right to modify above conditions from time to time. Such amendments will be communicated appropriately.
